Safety Guidelines for Using Graco Cribs

Safety guidelines are an integral part of any Graco crib manual. Adhering to these guidelines ensures that your baby sleeps safely and soundly. Here are some key safety practices to follow.

Correct Assembly

Always follow the assembly instructions provided in the manual. Incorrect assembly can lead to structural failures, which can endanger your child. If you are unsure about any step, consult the manual or contact customer support for assistance.

Appropriate Mattress Height

Adjusting the mattress height as your baby grows is vital. For younger infants, the mattress should be at the highest setting, making it easier to place them in and lift them out. As your baby begins to sit or stand, lower the mattress to prevent them from climbing out.

Safe Bedding Practices

Use a firm mattress that fits snugly in the crib. Avoid using pillows, blankets, or stuffed animals in the

crib, as these can pose suffocation hazards. Instead, consider using a sleep sack for warmth.
