Print textbooks are the traditional format that many students are familiar with. These books are tangible and can be highlighted or annotated, providing a tactile learning experience. TCU offers a wide range of print textbooks across various disciplines, ensuring that students have access to the materials required for their courses.

Digital Textbooks

Digital textbooks have become increasingly popular in recent years. These are often available as eBooks and can be accessed on multiple devices, such as tablets, laptops, and

smartphones. Digital textbooks typically offer features like searchability, adjustable text sizes, and interactive elements, which can enhance the learning experience.

Custom and Course Pack Textbooks

Some courses may require custom textbooks or course packs, which are compilations of excerpts from various sources tailored specifically to the class. These materials are often less expensive than traditional textbooks and can be found at the TCU bookstore or through the course instructor.
